The Emak Group

Our Vision

"Innovative solutions for the best customer value"

We aim to operate as one of the world's foremost players in the development, production and distribution of machines, components and accessories for gardening, agriculture, forestry and industry, with an offering of innovative products and services designed to make the work of our clients in the consumer and professional markets efficient and enjoyable, guaranteeing that they always receive the highest possible value.

Structure

The **Emak Group** is active in the development, production and worldwide sale of an extensive range of products for three business segments:

Outdoor Power Equipment

- Products for gardening and forestry applications, and small agricultural machines such as brushcutters, lawnmowers, garden tractors, chainsaws, rotary tillers and rotary cultivators.

Pumps and High Pressure Water Jetting

Three product lines:

- agriculture, with a complete range of centrifugal pumps, diaphragm pumps, piston pumps and components for applications on spraying and weeding machines;
- industry, with a complete range of low, high and very high pressure piston pumps, hydrodynamic units and accessories for water blasting, and machines for urban cleaning;
- cleaning, with a comprehensive offering of high-pressure washers, from home to professional use, floor washing-drying machines and vacuum cleaners.

Components and Accessories

- Products for the gardening, forestry, agriculture and cleaning sectors. The most representative are trimmer line and line heads for brushcutters (which together form the cutting system), accessories for chainsaws (such as sharpeners for chains), guns, valves and nozzles for high-pressure washers and agricultural applications, and products and solutions for precision farming.

The group has approximately **2,000 employees**.

Our Passion

Emak's green ethos is made up of certainty, innovation and completeness. Our green credentials are based on care, respect, passion and design focus. That's why, with our **Efco**, **Oleo-Mac**, **Bertolini** and **Nibbi** brands, **Emak** stands as a benchmark in groundcare and garden maintenance for professionals and amateurs alike. A passion that has been all-Italian for more than 50 years. There's an **Emak** for everyone.

Structure

Emak operates in the **Outdoor Power Equipment** segment through **9** companies engaged in the development, production and sale of products for gardening and forestry, and small agricultural machines, including brushcutters, lawnmowers, garden tractors, chainsaws, rotary tillers and rotary cultivators.

Outdoor Power Equipment

Products and Accessories Range

A thorough-going process of product development implemented by **Nibbi** has resulted in a **truly comprehensive, constantly updated range of machines, suitable for agriculture ground care and maintenance of allotments and gardens** and capable of responding to the needs of users at every level. Products differ according to the use for which they are designed, but all feature the same high standards of quality in terms of performance, reliability, comfort and safety.

Home-plus

Home-plus

A range of machines aimed at the home user, for tidying and cleaning the garden, cutting hedges and small trunks or stems, and DIY jobs in general. Characterized by lightweight and compact construction, to make the task of the operator that much simpler. Easy to start, easy to use, easy to maintain: these are the ideal tools for getting things done quickly and neatly around the home.

Tough-tech

Tough-tech

Solid and dependable, these are machines designed for heavy and frequent use in countryside environments: clearing overgrown and uncultivated areas, pruning and cutting firewood, crop irrigation and disinfestation tasks. Designed adopting solutions certain to ensure high work rates and maximum durability over time.

Sharp-pro

Sharp-pro

No-nonsense everyday tools for the busy professional, these are machines that stand out for the toughness of their components, their high performance and their matchless long-term durability. Specific materials used in construction guarantee unwavering quality even when tackling the most severe and lengthy of tasks, like forestry work and the clearance of uncultivated areas or scrub and undergrowth.

Specialist machines for soil preparation.
Powerful and sturdy over large areas,
practical and reliable even in private
gardens and allotments: a wide range
to suit all needs.

Rotary tillers

Rotary tiller for home use

055

Ideal for home gardeners who need to prepare vegetable patches and flower beds for seeding, this model offers an excellent combination of manageability and user-friendliness.

Rear wheel for easy transportation of the machine.

Speed regulator with integrated on-off system and control lever located within easy reach.

46 cm rotor with three elements per side, can be reduced to 32-22 cm.

Rotary tiller for home use

095 S

Ideal for home gardeners who need to soften up the soil for seeding, this model offers an excellent combination of manageability and user-friendliness.

Front wheel for easy transportation of the machine. The wheel can be easily folded upward without tools to facilitate operations on the ground.

Handlebars with horizontal and vertical adjustment to allow the operator to assume the correct posture while working.

82 cm rotor with three elements per side with lateral protection discs.

105 S

Ideal for demanding home gardeners to prepare the soil for sowing. This model features two forward speeds and one reverse, the perfect combination for the most difficult jobs.

Practical and ergonomic external gear selector. Integrated tool holder and depth adjustable jackleg.

Handlebars with vertical and horizontal adjustment by means of an easily accessible lever, allowing the operator to assume the correct posture for the maximum working comfort.

85 cm rotor (reducible to 60-35 cm), oversized knives and lateral protection discs.

Professional rotary tiller

115 S

Extremely reliable, compact and easy to handle. Designed to meet the needs of smallholders and groundcare professionals. The direct gear transmission and cone clutch make the machine extremely resistant to the stresses generated during work operations while maximising operator comfort.

Direct transmission with gears on the crankshaft for the maximum stress resistance.

Versatile, thanks to the 3-speed gearbox (2 forward + 1 reverse) that makes it possible to achieve the same tillage results irrespective of the hardness and consistency of the soil.

Extremely rugged oil-bath gearbox with very low maintenance requirements.

Professional rotary tiller

118

Model designed to meet the needs of smallholders and groundcare professionals. The direct gear transmission on the crankshaft makes the tool resistant to the stresses generated when working on hard terrain.

Direct gear transmission on the crankshaft with oil-immersed multi-disc clutch.

Extreme versatility thanks to the 4-speed gearbox (3 forward + 1 reverse) that makes it possible to achieve the same tillage results irrespective of the hardness and consistency of the soil.

Oil-bath gear drive, extremely robust and with reduced maintenance requirements.

Two wheel tractors

Two wheel tractor for home use

BRIK

Ideal for home users with small gardens requiring periodic soil preparation for sowing, also in particularly difficult conditions. The rotor turns in the opposite direction to the direction of rotation of the wheels, thus giving the operator the maximum control of the cultivator and significantly reducing transmitted vibration levels.

50 cm wide counter-rotating rotor to facilitate work on particularly difficult terrain.

Large sized wheels for easier maneuvering of the machine.

Rotor depth adjustment enables operation on all types of terrain.

Two wheel tractor for home use

BRIK 1 S

Designed for demanding home gardeners tending an allotment or vegetable plot, this two wheel tractor is extremely functional and offers the optimal combination of ease of use and safety.

Handlebar-mounted PTO control.

Handlebars with vertical and horizontal adjustment and 180° reversible, with vibration-damping device to assure more comfortable handling.

Integral QuickFit coupling that allows the operator to change the equipment without using tools.

Two wheel tractor for intensive use

BRIK 5 S

Designed for small and medium-size plots, this machine very effectively combines professional level reliability and performance with extreme ease of handling, making it ideal for demanding home users and smallholders. The full range of accessories, including rotors, cutterbars, brushes and snowthrowers, are designed to meet the requirements of users seeking a multifunction machine that's both practical and safe.

Handlebars with vertical and horizontal adjustment and 180° reversible, with vibration-damping device to assure more comfortable handling.

The EHS system ensures ease of use, reduced effort and the maximum simplification for users.

Practical forward/reverse shuttle enables the operator to change quickly into reverse gear from any speed, making the machine easy to handle even with the rotor or other accessories mounted.

Two wheel tractor for intensive use

KAM 7 S

Thanks to the differential with locking lever on the handlebars, which affords perfect manoeuvrability and grip even on the most difficult terrain and on slopes, the key strength of this machine is its ease of use. The facility to use a range of different accessories for tillage, grass cutting and maintenance of gardens or urban spaces makes these machines exceptionally versatile and perfectly adapted to meet the needs of demanding home users and smallholders.

Ergonomically positioned easy action levers for differential locking and reverse shuttle.

Independent brakes on each wheel and handlebar steering to facilitate travel on even the most difficult terrain.

QuickFit coupling that allows the operator to change the equipment without using tools.

Two wheel tractor for intensive use

KAM 13 S

Designed for professional users, with a 3-speed gearbox and differential, this machine, in its various different engine versions, is designed to take the most punishing conditions in its stride. Very versatile and safe, with its EHS system for easy clutch control this machine combines ruggedness and exceptional ease of handling. Individual user requirements can be met with the generous range of accessories available.

Ergonomically positioned easy action levers for differential locking and reverse shuttle.

The EHS system ensures ease of use, reduced effort and the maximum simplification for users.

QuickFit coupling that allows the operator to change the equipment without using tools.

Professional two wheel tractor

MAK 17 S

Professional machine with power rating and features that make it ideal for tillage, root crop harvesting and ploughing duties on all terrain types. Combines exceptional ease of use and versatility with the ability to work on all types of terrain safely, thanks to the self-locking differential and 5-speed gearbox.

The EHS system ensures ease of use, reduced effort and the maximum simplification for users.

Single-disc version, diesel, supplied as standard with protective cowling.

Two power take-offs, one independent two-speed PTO and one synchronised PTO.

Professional two wheel tractor

MAK 18 S

Its characteristics of high power and reliability make this model perfect for farmers and ground care professionals. Combines exceptional ease of handling and versatility with the ability to work on all types of terrain safely, thanks to the self-locking differential and 5-speed gearbox. The powerful engines available for this model are exploited in full thanks to the reinforced half-shafts, while the large size final reduction gears on the axle ensure efficient transmission of the full engine power while increasing the machine's ground clearance.

Reinforced half-shafts with final reduction drives incorporated in the transmission assembly for more grip on difficult terrain.

Two power take-offs, one independent two-speed PTO and one synchronised PTO.

Accessories coupling by means of flange on the PTO.

Flail mower for intensive use

NTS 50

NEW

Compact and high-performance model, designed for home gardeners and professional operators. Grass, shoots, low vegetation and scrub are the ideal working environment. The compact dimensions of the rotor unit make this machine highly manoeuvrable in confined spaces and when moving between work areas. No type of terrain is off-limits, thanks to the large tyred wheels. A versatile machine that easily adapts to different types of environments and cuts.

Cutting unit rotor supported by reinforced bearings and shields, resulting in a machine that is perfectly balanced and resistant to accidental knocks.

Handlebars adjustable vertically and horizontally by means of a comfortable handgrip positioned at the end of the steering column.

Generously sized tyred wheels (4.00-8") to ensure excellent grip on the ground.

Professional flail mower

NTS 65

High-performance, reliable model designed for the needs of farmers and professional operators. Grass, shoots, twigs and low vegetation, scrub and stubble: this machine stops at nothing, assuring excellent cleaning of ground, orchards and vineyards thanks to its highly efficient and powerful cutting unit and wide working width.

Independent steering clutches on the driving wheels, with wheel lock, which make the machine extremely easy to handle.

The handlebars have 4 vertical adjustment positions and 5 horizontal adjustment positions.

The front directional wheels can be locked to facilitate work on sloping surfaces.

Professional flail mower

NTS 80

Extremely high-performance and reliable machine. The large shredding capacity and powerful engines allow for working in extreme conditions and on slopes. Exceptional maneuverability and ease of use ensure excellent results in all conditions of use, as well as total safety at all times.

Rotor with powerful and sturdy 'Y' shaped knives to cut and shred grass and clippings efficiently with no risk of impact or damage.

The gear selection lever on the handlebar is simple to operate.

The service and parking brake engages automatically when the clutch is released, to prevent accidental hazardous movements.

Cutterbar mower for home use

FC 120 S

The machine is primarily used to cut grass and fodder crops and for general field clearing duties. Features such as the vertically and horizontally adjustable handlebars, the QuickFit system, and transmission available also with oil-immersed drive reflect the high level of attention paid to the operator.

Handlebar-mounted PTO control.

Handlebars with vertical and horizontal adjustment and vibration-damping device to assure more comfortable handling.

Integral QuickFit coupling that allows the operator to change the equipment without using tools.

Cutterbar mower for intensive use

FC 130 S

Designed for use in small and medium-size plots, this machine combines practicality and lasting reliability, making it ideal for demanding home users and smallholders. The wide range of accessories available, including cutter bars, brushes and snow throwers, meets the requirements also of people seeking a multifunction machine that's safe and easy to use.

Handlebars with vertical and horizontal adjustment and vibration-damping device for more comfortable use of the machine.

The EHS system ensures ease of use, reduced effort and the maximum simplification for users.

Practical forward/reverse shuttle enables the operator to select reverse quickly from any speed. This feature makes the machine exceptionally manoeuvrable in various different work activities.

Cutterbar mower for intensive use

FC 20

Configured for a centrally mounted cutterbar, this lightweight and easy-to-handle machine was designed to satisfy the needs of semi-professional users. It is used mainly for cutting grass and forage crops and for field cleaning. Details including the height-adjustable handlebars, rapid forward/reverse shuttle, Quickfit system and optional oil-bath transmission all demonstrate the close attention paid to operator comfort and safety.

Rapid forward/reverse shuttle, controlled from the handlebar: used to invert the operating direction without touching the gears.

Integral QuickFit coupling that allows the operator to change the equipment without using tools.

Handlebars with vertical adjustment and vibration-damping device to assure more comfortable handling.

FC 20

Cutterbar mower for intensive use

FC 145 S

Safety, ergonomics and styling. Every detail is aimed at assuring safe and accurate work operations: with features such as the adjustable height handlebars, rapid reverse shuttle, QuickFit system and transmission with oil-immersed drive, all reflecting the painstaking attention dedicated to the operator.

Ergonomic reverse shuttle with selector lever on the handlebars: allows the direction of travel to be changed without having to change gear.

Integral QuickFit coupling that allows the operator to change the equipment without using tools.

Handlebars with vertical adjustment and vibration-damping device for enhanced operator comfort.

Professional cutterbar mower

FC 30

The model FC 30 completes the semi-professional range: this is the ideal machine for mowing grass and forage crops or cleaning in open fields. With an excellent combination of power and easy handling, this cutterbar mower is fitted with independently controlled brakes as standard.

Independent brakes on each wheel supplied as standard.

Practical forward/reverse shuttle enables the operator to change quickly into reverse gear at any speed.

Differential supplied as standard to allow the formation of windrows even when working on a gradient.

Professional cutterbar mower

FC 150 MS

Safety, ergonomics, high performance. Professional model ideal for use on mountainous terrain, for cutting grass, hay making and field clearing duties: this is a powerful machine that's well suited to working on fields with a steep gradient.

Steering clutches with control in combination with the brakes allow the machine to turn 360° with a minimum turning radius.

Half-shafts with final reduction gears to improve grip on steep inclines.

Independently controlled brakes and parking brake.

Transporter for intensive use

NTR 450

Designed to meet the needs of demanding users, this model stands out for its manoeuvrability, ruggedness, and generous load capacity. It is also equipped with a power take-off to drive accessories.

Belt clutch with automatic disengagement when the control lever is released.

Steering with independently controlled releases and brakes.

Protected, expandable brakes for working in extreme conditions.

Professional transporter

— NTR 550 D

Professional model offering a combination of high power, easy handling and high load capacity. The transporter is ideal for applications in the agricultural and building sectors. Tipping is hydraulically operated to provide the maximum possible assistance for the operator during material handling activities.

Lever-operated hydraulic tipping control valve.

Steering with independently controlled releases and brakes.

Protected, expandable brakes for working in extreme conditions.

Professional transporter

NTR 1750 D

Designed for professional use, this is a dumper model machine with hydraulically operated load box tipping: ideal for transporting firewood, stone, sand and other building materials. Its increased dumping angle - 60° - meets the need for creating piles and mounds. Suited to all kinds of terrain, even on slopes, this transporter has a small steering radius, making it easy to handle.

Lever-operated hydraulic tipping control valve.

Dumper loading platform with counter-frame for 60° dump angle.

Crawler tracks made of hard rubber, width 180 mm: assure excellent grip on all types of terrain.

Emak Engines Agricultural Line

Horizontal shaft engines are available in different displacements for every needs. Main features like, easy to start, easy to use, powerful engine selections and Stage 5 compliance, are standard on whole range. OHV technology, available on all range, permit a long life offering ever high performance.

- **Easy to start:** distribution system and wide starter pulley, permits a safe and low effort starting.
- **Oil bath filter:** twin stage, sponge and oil; it retains dirty particles before entering into the combustion chamber: that extends the overall engine life.
- **Full compatibility:** these powerful and compact engines, gasoline or diesel, also equipped with an electric starter, offer the perfect solution for the different agricultural works.
- **Easy to maintain:** cleaning the main parts (air filter, sparking plug, starter pulley etc.) and also the oil refilling are very quick due to its specific construction layout.

Stage 5

Low emission engines, compliant with European emission standards (STAGE 5).

OHV technology

Overhead valve (OHV) engine is a piston engine whose valves are located in the cylinder head above the combustion chamber. Perfect and stable performance also during heavy use.

Oil bath filter

Twin stage filter system in oil bath. It also retains the thinnest powder particles.

Automatic decompressor

Decompression is the process by which the air mixture present inside the cylinder is pushed out prior to the engine starting. This automatic system permits to reduce the effort during the starting steps.

KeyGo

Electric starter device: the engine starting is made through an electric motor connected to the crankshaft and activated by a key-operated switch.

Gasoline

Gasoline fuel type engine.

Diesel

Diesel fuel type engine.

Emak Engines Gardening Line

Vertical shaft engines are available in different displacements for every needs. Main features like, easy to start, easy to use, powerful engine selections and Stage 5 compliance, are standard on whole range.

- **Easy to start:** using the Auto-Choke technology, the starting step is always easy and ready even if outside temperature falls down.
- **Paper air filter:** wide filtering area and easy to clean, protecting and ensuring long life to the engine.
- **Ergonomic design:** compact engine and cutting-edge design, perfect combination to avoid any interference with hedges or small trees.
- **Full compatibility:** these light and compact engines, available in different displacements can be fixed upon various cutting decks.
- **Easy to maintain:** cleaning the main parts (air filter, sparking plug, starter pulley etc.) and also refilling or change the oil are very quick and fast due to the engine construction layout.

Stage 5

Low emission engines, compliant with European emission standards (STAGE 5).

OHV technology

Overhead valve (OHV) engine is a piston engine whose valves are located in the cylinder head above the combustion chamber. Perfect and stable performance also during heavy use.

Auto Choke

A device attached to the carburettor that automatically reduces the amount of air entering the carburettor by sensing changes in engine temperature.

iK-GO

Emak engine with electric starter running on a rechargeable battery.

Gasoline

Gasoline fuel type engine.

Electric starter

Engine with electric starter device.

Dimension	466 x 469 x 357 mm
Net weight	43 kg

Working calmly and efficiently:
the peace of mind that comes from safety.

Boots, Lubricants and sundry Accessories

Protective Clothing

Chain resistant boots

Combining the characteristics of trekking boots with the safety features required by specific PPE regulations. Chain resistant certified to EN ISO 17249 Class 2 (Category 3 PPE, able to resist chain speeds of up to **24 m/s**). Flexible and comfortable, these boots assure a high level of comfort during work activities, maximising control and mobility. The boots offer excellent grip thanks to the deep channel tread pattern of the sole in anti-oil, antistatic, non-slip nitrile rubber with heat resistance up to 300°C.

Safety	<ul style="list-style-type: none">• CE approval, standards EN ISO 17249:2013, EN ISO 20345:2011, CL2 S3-CI-HI-HRO-SRC, Class 2.• Category 3 PPE. Certified to EU 2016/425.							
Materials	<ul style="list-style-type: none">• Water-repellent leather upper.• Breathable nonwoven fabric lining.• High-strength fabric anti-piercing sole plate.• 8-layer chain protection from top of foot up to the shin and on the sides.

H₂OUT chain resistant boots

Combining the characteristics of trekking boots with the safety features required by specific PPE regulations. Chain resistant certified to EN ISO 17249 Class 2 (Category 3 PPE, able to resist chain speeds of up to **24 m/s**). Flexible and comfortable, these boots assure a high level of comfort during work activities, maximising control and mobility. The boots offer excellent grip thanks to the deep channel tread pattern of the sole in anti-oil, antistatic, non-slip nitrile rubber with heat resistance up to 300°C. The boots provide the maximum impermeability thanks to the "Tepor" membrane interposed between the upper and the lining.

Safety	<ul style="list-style-type: none">• CE approval, standards EN ISO 17249:2013, EN ISO 20345:2011, CL2 S3-CI-HI-HRO-SRC, Class 2.• Category 3 PPE. Certified to EU 2016/425.

Protective Clothing

Professional protective and noise-filtering ear defenders

Professional ear defenders for maximum hearing protection, 32 dB attenuation.

Safety	<ul style="list-style-type: none"> • EN 352-1 approved ear defenders. • Category 2 PPE. 	
Materials	<ul style="list-style-type: none"> • Shell made of UV-resistant ABS (shock absorbent). • Stainless steel headband. • Adjustable. • Attenuation (SNR): 32 dB. • PVC + foam sound insulation. 	
Sizes	Universal	3155013R

Noise filtering ear defenders

Ear defenders for excellent hearing protection, 30 dB attenuation.

Safety	<ul style="list-style-type: none"> • EN 352-1 approved ear defenders. • Category 2 PPE. 	
Materials	<ul style="list-style-type: none"> • Shell in ABS. • Plastic + stainless steel headband. • Adjustable. • Attenuation (SNR) 30 dB. • PVC + foam sound insulation. 	
Sizes	Universal	001000835

Noise filtering ear defenders

Ear defenders for excellent hearing protection, 27 dB attenuation.

Safety	<ul style="list-style-type: none"> • EN 352-1 approved ear defenders. • Category 2 PPE. 	
Materials	<ul style="list-style-type: none"> • Shell in PVC. • Plastic headband. • Adjustable. • Attenuation (SNR): 27 dB. • PVC + foam sound insulation. 	
Sizes	Universal	4175114

Protective Clothing

Dark protective spectacles

Versatile, lightweight and ergonomic protective spectacles, dark lens.

Safety	<ul style="list-style-type: none"> • EN 166 approved protective spectacles. • Optical class 1.
Materials	<ul style="list-style-type: none"> • Wrap-around anti-scratch lens, dark, anti-glare in sunlight, soft silicone nose pads. • Mechanical strength: Lens FT - Frame FT.
Sizes	Universal 3155026AR

Clear protective spectacles

Adjustable, lightweight and ergonomic protective spectacles, clear lens.

Safety	<ul style="list-style-type: none"> • Protective spectacles approved to EN 166 (2C-1.2 1FTKN / Z87+U6). • Optical class 1.
Materials	<ul style="list-style-type: none"> • Wrap-around clear anti-scratch lens, anti-glare in sunlight, resistant to fogging. • Brow-pad, temples and nose bridge in soft anti-slip thermoplastic, for greater comfort and greater protection against dust and droplets. The wraparound lens offers a wide field of vision, while the adjustable temple and lens inclination allows for a customised fit. • Mechanical strength: Lens FT - Frame FT.
Sizes	Universal 3155027AR

Super-professional face shield

Professional lightweight ergonomic face shield for the maximum safety, mesh and polycarbonate protection.

Safety	<ul style="list-style-type: none"> • EN 1731-S approved.
Materials	<ul style="list-style-type: none"> • PVC structure, replaceable and adjustable metal mesh face shield. • Foam brow band.
Sizes	Universal 001000939A

Safety	<ul style="list-style-type: none"> • EN 166 approved. • Optical class 1, mechanical strength B.
Materials	<ul style="list-style-type: none"> • PVC structure, polycarbonate face shield, antifogging, adjustable, replaceable. • Foam brow band.
Sizes	Universal 001000940A

Plus face shield

Lightweight ergonomic face shield for the maximum safety, mesh and polycarbonate protection.

Safety	<ul style="list-style-type: none"> • EN 1731-F approved. • Optical class 1, mechanical strength B.
Materials	<ul style="list-style-type: none"> • PVC structure, metal mesh face shield, adjustable, replaceable. • Foam brow band.
Sizes	Universal 001000941A

Safety	<ul style="list-style-type: none"> • EN 166 approved. • Optical class 1, mechanical strength B.
Materials	<ul style="list-style-type: none"> • PVC structure, polycarbonate face shield, antifogging, adjustable, replaceable. • Foam brow band.
Sizes	Universal 001000942A

Lubricants and sundry Accessories

Special oil for 4-stroke engines - SAE 10 W - 30

Highly refined SAE 10 W - 30 grade mineral oil, specifically formulated and developed for 4-stroke air- and water-cooled engines designed for gardening sector applications. Mineral type engine oil containing a special combination of additives that give excellent detergent/dispersant, antioxidant, anticorrosive, and anti-wear properties. Exceeds API SG/CE, MIL - L - 2104 D, MIL - L - 46152 C specifications.

200 l drum

3555024

ADDITIX 2000 EVO special additive for petrol fuels

Special additive ideal for conditioning two-stroke mixture and leaded or unleaded petrol. Prevents deterioration of fuel for at least 12 months and protects against oxidation. Facilitates starting, keeps fuel system clean (up to the intake valves in the case of 4-stroke engines), and protects against rust and corrosion. It also increases the octane rating. The dispersing-detergent agents in the product disperse any traces of water in the fuel. Pack of 24 x 125 ml bottles. Two full doser caps are sufficient for 5 l of petrol.

125 ml bottle

001000972A

Fuel can

Fuel can, approved for transporting fuel on the road by the SNCH accreditation agency in compliance with the applicable United Nations standard. Equipped with a flexible extension spout for optimal refueling in all conditions and a "level band" for rapid identification of the remaining fuel level; max capacity 5L. Top quality fuel can, suitable for professional and private use. Pack: carton.
